

Temporary Myocardial Electrodes

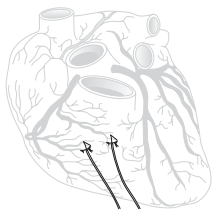

Unipolar (2x)

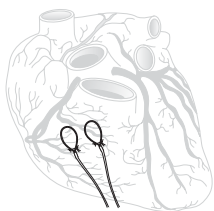

TME..Z - ZigZag

TME..T - Tines

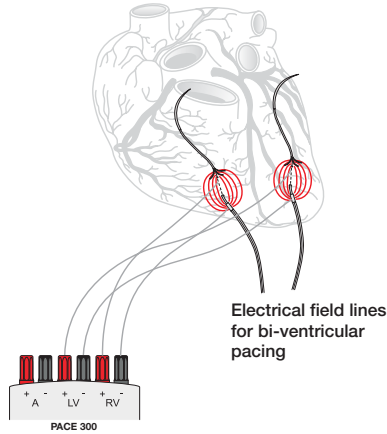

TME..V - V-Shape

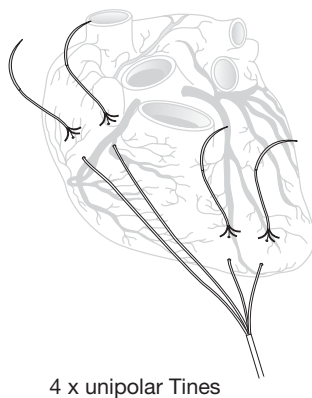

TME..Loop

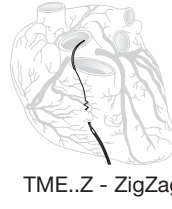

Biventricular

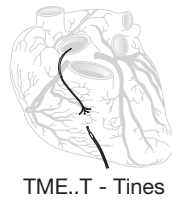

Quadripolar

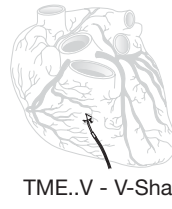

Bipolar

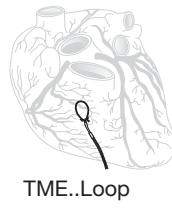

TME..Z - ZigZag

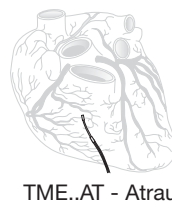

TME..T - Tines

TME..V - V-Shape

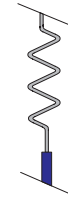

TME..Loop

TME..AT - Atraumatic

Fixation Options

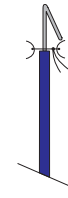

TME .. Z

- Variable Stimulation
- Variable Fixation

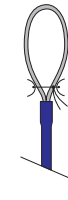

TME .. T

- Secure Fixation
- Defined Electrode Surface

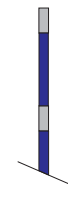

TME .. V

- For Pediatrics

TME .. Loop

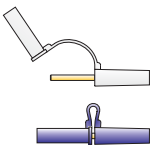

- Suited for Pediatric Applications

TME .. AT (bipolar)

- Atraumatic
- For Pediatrics

Accessories

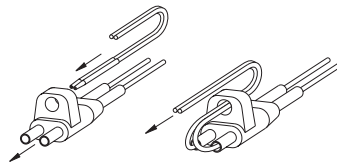

2 mm pins in 2 colors

TME CONFIX

Lead with integrated connector pins - plugs into both pacemaker and extension cord.

VHC Extension Cable for TME Confix

Pace 203 H Dual Chamber External Pulse Generator

Pace 300 External Triple Chamber Pacemaker
