Emissions Reduction Targets

In order to continue our progress to achieving net zero, we have adopted the following reduction targets.
We project that by using recommendations that are in line with the Science-based approach target initiative we will reduce our carbon emissions by:

- 42% minimum in Scope 1 and 2 by 2030 from our 2025 base line

The following environmental management measures and project have been completed or implemented since the 2025 baseline. The carbon emission reduction achieved by these schemes equate to .99 tCO2e, a 4.65% reduction against the 2025 baseline and the measures will be in effect whilst performing the contract.

Future Carbon Reduction Initiatives

CLS Surgical Limited is committed to reducing their carbon emissions. We are in the process of becoming completing the ISO 14001 Environment Management Standard to become a socially responsible business.

Future sustainable projects for emissions reduction include:

- Supporting more hybrid working
- Cycle to work schemes
- Explore changing company cars from petrol to EV
- Use sustainable EV delivery companies
- Switching to quality renewable electricity tariff
- Workforce climate awareness training
